

STRIPE

CHAIR

DESIGN BY MATALI CRASSET

ITEM 3260

Originally, the Stripe chair was developed by Fermob as part of a special project at the request of the designer Matali Crasset. She wanted to create a seat to encourage people to talk and share, and that would be easy to move from one table to another, for the new Mini R fast food concept of the student services organisation CROUS. This is how Stripe came into being: an aluminium chair with gentle curves, comfortable to use with a handle on the back of the backrest. Available in a standard version for all professional projects.

TESTING STANDARDS - Upon request

NF EN 581-1 (all products), NF EN 581-2 (seats)

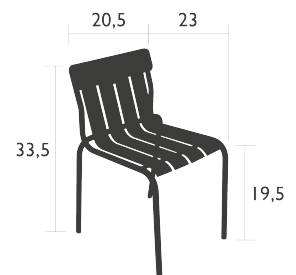

WARRANTY

	IN ALUMINUM	IN STEEL
STRUCTURAL	3 YEARS	2 YEARS
