The Bellevie collection is extremely popular in the Contract network. But it was missing a chair for collective use in restaurant spaces. Now, the V2 chair has filled that gap! Guests will simply love the U-shaped (sledge-style) base that's so characteristic of the collection and prevents the chair from getting stuck between the slats on the terrace floor. Made from aluminium and steel for maximum strength, this product packs every inch of Fermob's industrial know-how in designing products that can withstand outdoor use and it comes

Thanks to its easily recyclable material, it can also be used on Premium positioning.

WARRANTY

	IN ALUMINUM	IN STEEL
STRUCTURAL	3 YEARS	2 YEARS
FINISH	2 YEARS	1 YEAR

TESTING STANDARDS - Upon request

TECHNICAL FEATURE - STRUCTURE

Aluminium flat Frame
steel sheet Seat - aluminium molded Backrest -
