

# OULALA

SET OF 3 NESTING LOW TABLES

DESIGN BY STUDIO FERMOB

## ITEM 9009

Oulala is a brand-new, modular collection featuring a trio of nesting low tables of different shapes and heights that you can mix and match as the mood takes you. The height differences are a deliberate design feature, allowing the tables to slot under one another, thereby taking up less space on the ground while adding eye-catching appeal. This trio of nesting low tables comprises:

- a low rectangular table (22 x 12 x h16 in.)
- a low square table (16 x 16 x h15 in.)
- a low rectangular table (20 x 12 x h14 in.)

Each low table boasts a steel wire base and a steel sheet table top: a combination of solid and void that gives these low tables a visually striking personality and contemporary appeal.

This trio of different formats (square and rectangular) and different heights lends itself to a wide variety of configurations, proving a highly versatile option for retail and Contract customers alike.

Designed for indoor and outdoor use, these low tables are equally happy to live together or separately: as an occasional table, by a lounge set, or even as standalone low tables in their own right!

This product is a low table and not a stool.

A smart, ingenious and compact product: just like the brand itself!

The low tables come with four carefully selected color combinations, they slot seamlessly into the timeline of Fermob.
