

CALVI

TABLE 63 X 31 IN.

DESIGN BY ANTOINE LESUR

ITEM 8744

With its sleek, modern look, this piece makes the perfect addition to any indoor or outdoor space. Thanks to its anti-UV polyester powder coating and 100% aluminium design, the Calvi table can withstand every weather – from baking heat to heavy rain and harsh frost. It also owes its durability to its thick table top, which may look light but is extremely robust. And this is a clever piece, too: from the ingenious way the legs are attached, to the height-adjustable pads that keep it stable on uneven outdoor surfaces. This little garden table is made entirely in France: a fact that only adds to its endearing charm. Combine it with Cadiz seats – also designed by Antoine Lesur – to really enhance your patio or terrace. All that remains is for you to pick your shade from the vast Fermob colour chart. The choice is yours: match your outdoor table with your chairs, or go for contrast.

WARRANTY

	IN ALUMINUM	IN STEEL
